

Pelvic Floor Neuromodulation

Advanced training program

November 9 and 10, 2017

Copenhagen, Denmark

Course Director

Dr. Lilli Lundby, Aarhus, Denmark

Prof. Philip Van Kerrebroeck, Maastricht, The Netherlands

Faculty

Dr. Helene Tarri Hougaard, Aarhus, Denmark

Prof. Emmanuel Chartier-Kastler, Paris, France

Mr. Thomas Dudding, Southampton, United Kingdom

Dr. Jakob Duelund-Jakobsen, Aarhus, Denmark

Preliminary agenda

Published: September 1, 2017

Thursday, November 9, 2017

Venue: Copenhagen Admiral Hotel

8:00 Welcome, introduction and presentation of participants - Dr. Lundby, Prof. Van Kerrebroeck

8:45 SNS, indications & outcome, current messages from the literature - Bladder - Prof. Van Kerrebroeck

9:15 SNS, indications & outcome, current messages from the literature - Bowel - Dr. Lundby

9:45 **Coffee break**

10:15 SNS, mechanism of action, What do we know? - Prof. Chartier-Kastler

11:00 Electrical stimulation; theory and practice - Mr. Dudding

11:25 Mini break

11:35 Update on implant technique - Prof. Van Kerrebroeck

12:00 Lead placement, impact on clinical outcome - Dr. Duelund-Jakobsen

12:30 **Lunch**

13:30 Break-out brainstorm session

Colorectal surgery: Dr. Lundby, Dr. Tarri Hougaard, Mr. Dudding, Dr. Duelund-Jakobsen

Short presentation: SNS in the treatment algorithm for colorectal problems, update on appropriate patient selection and criteria for success. After a short general presentation discussion in groups (bowel/bladder) with a presentation from each participant 'how do you do it in your centre and what are your major problems', cases from Faculty

Urology: Prof. Van Kerrebroeck, Prof. Chartier-Kastler

Short presentation (overactive bladder Prof. Van Kerrebroeck and retention Prof. Chartier-Kastler) SNS in the treatment algorithm for urological problems (OAB and retention), update on appropriate patient selection and criteria for success. After the presentation discussion in groups (bowel/bladder) with a presentation from each participant 'how do you do it in your centre and what are your major problems', cases from Faculty

15:00 **Coffee break**

15:30 Dual incontinence, current evidence, screening urinary, and fecal incontinence patients, discussion with participants - Prof. Van Kerrebroeck, Prof. Chartier-Kastler

16:00 Tricky cases presented by the participants - moderator: Dr. Tarri Hougaard

3-5 minutes presentation followed by group discussion

17:00 End of program day 1

19:00 Group dinner

Friday, November 10, 2017

Venue: Copenhagen Admiral Hotel

8:30 Post-operative management, advanced programming and troubleshooting - Mr. Dudding

9:15 Practical tips and tricks in programming/db stimulation - Prof. Chartier-Kastler

10:00 Coffee break

10:30 2nd Break-out session

Evaluation of effect (urology), present topics for research urology (faculty and participants)

Prof. Van Kerrebroeck, Prof. Chartier-Kastler

Evaluation of effect (colorectal), present topics for research bowel (faculty and participants)

Dr. Lundby, Dr. Duelund-Jakobsen

11:30 Controversies in SNS

Follow-up: when and how? - Mr. Dudding

Revisions: when and how? - Prof. Chartier-Kastler

LA vs. GA - Dr. Tarri Hougaard

S3 vs. S4 - Dr. Duelund-Jakobsen

Future of Neuromodulation - Prof. Van Kerrebroeck

12:30 Take home messages/Closing remarks - Dr. Lundby, Prof. Van Kerrebroeck

12:45 Evaluation of the course - Dr. Lundby, Prof. Van Kerrebroeck

13:00 Lunch

14:00 End of program
